³ - 25% BBAG + 5% ICE BofA US HY + 40% R1000 + 10% Russell 2500 + 20% MSCI ACWI ex US

⁴ - 90 Day T-bill

This report is provided for informational purposes with your consent. Your UBS Financial Services Inc. ("UBSFS") accounts statements and confirmations are the official record of your holdings, balances, transactions and security values. UBSFS does not provide tax or legal advice. You should consult with your attorney or tax advisor regarding your personal circumstances. Rely only on year-end tax forms when preparing your tax return. Past performance does not guarantee future results and current performance may be lower or higher than past performance data presented. Past performance for periods greater than one year are presented on an annualized basis. UBS official reports are available upon request.

Important information about UBS brokerage and advisory services. As a firm providing wealth management services to clients, UBS Financial Services Inc. offers investment advisory services in its capacity as an SEC-registered investment adviser and brokerage services in its capacity as an SEC-registered broker-dealer. Investment advisory services and brokerage services are separate and distinct, differ in material ways and are governed by different laws and separate arrangements. It is important that you understand the ways in which we conduct business and that you carefully read the agreements and disclosures that we provide about the products or services we offer. For more information, please review client relationship summary provided at ubs.com/relationshipsummary.

The information is based upon the market value of your account(s) as of the close of business on 3/31/2023, is subject to daily market fluctuation and in some cases may be rounded for convenience. Your UBS account statements and trade confirmation are the official records of your accounts at UBS. We assign index benchmarks to our asset allocations, strategies in our separately managed accounts and discretionary programs based on our understanding of the allocation, strategy, the investment style and our research. The benchmarks included in this report can differ from those assigned through our research process. As a result, you may find that the performance comparisons may differ, sometimes significantly, from that presented in performance reports and other materials that are prepared and delivered centrally by the Firm. Depending upon the composition of your portfolio and your investment objectives, the indexes used in this report may not be an appropriate measure for comparison purposes, and as such, are represented for illustration only. Your portfolio holdings and performance may vary significantly from the index. Your financial advisor can provide additional information about how benchmarks within this report were selected.

You have discussed the receipt of this individually customized report with your Financial Advisor and understand that it is being provided for informational purposes only. If you would like to revoke such consent, and no longer receive this report, please notify your Financial Advisor and/or Branch Manager.

Time-weighted Returns (after 10/31/2010): For reports generated on or after 1/26/2018, the report displays a time weighted rate of return (TWR) that is calculated by dividing the portfolio's daily gain/loss by the previous day's closing market value plus the net value of cash flows that occurred during the day, if it was positive. The TWR gives equal weighting to every return regardless of the amount of money invested, so it is an effective measure for returns on a fee based account. Periods greater than one day are calculated by linking the daily returns. All periods shown which are greater than 12 months are annualized. For reports generated prior to 01/26/2018, the performance calculations use the account's value end of day on the day of performance inception and all cash flows were posted at end of day for the performance calculation. As a result of the change (applying net positive cash flows that occurred during the day), the overall rate of return (TWR) and beginning market value displayed can vary from prior generated reports.
